

The text on this file is intended to be printed on a printer on a premade envelope rather than cut with the cutter. It could also be written with a pen in the blade clamp on the cutter instead of a blade.

The 'growing' lollipop is paper pieced and the "Lollipop Seed" words can be cut from vinyl.

Lollipop Seeds

Plant the seeds at night
before you go to bed.
In the morning you will
find lollipops instead!
